EDUCATION

North Carolina A&T, B.S. in Computer Science, GPA: 3.75

May 2029

Honors: Chancellor's List (Fall 2025), Aggie Merit Scholarship recipient, 2x USA Taekwondo National Team, former #1 U.S. rank

Relevant Coursework: Data Structures and Algorithms, Computer Program Design, Discrete Structures

TECHNICAL SKILLS

Programming Languages: C++20/C++17, Python, Java, TypeScript, JavaScript

Systems Programming: Linux/POSIX process control (fork, execvp, waitpid), signals, pipes, file descriptors, I/O redirection, memory debugging

Security & Testing: libFuzzer, AddressSanitizer, end-to-end test suites, GitHub Actions CI, CrowdStrike, Zscaler (ZIA, ZPA, ZDX), Qualys

Infrastructure: Windows endpoint administration (GPO, RMM, MDM), Okta/IdP migration, Make, Git/GitHub

Application & AI: React, Next.js, FastAPI/Flask, REST APIs, Postgres, Claude Code, Codex, OpenAI API

EXPERIENCE

Cyber & Security Operations Intern | Ridge IT Cyber

May 2026 - Aug 2026

- Triaged 30+ endpoint and identity-based alerts weekly in CrowdStrike, identifying recurring benign patterns and applying exclusion rules that cut false-positive volume across 500+ managed client devices
- Completed Zscaler zero trust training (ZIA, ZPA, ZDX) and documented configuration changes supporting policy reviews, IdP migration, and version profile management across client environments
- Onboarded 2 client environments onto CrowdStrike Falcon end to end, covering tenant provisioning, sensor deployment via GPO, RMM and MDM, prevention policy tuning, and migration off legacy EDR tools

Co-Founder & Product Lead | AutonomIQ LLC

2026 - Present

- Owned the product build for an AI voice receptionist sold to local trade businesses, shipping on Vapi, Make, Twilio and Google Calendar across 3 subscription tiers priced \$297 to \$897 per month
- Identified a silent failure in a vendor calendar integration that had never been OAuth-connected, then rebuilt booking, availability and live transfer as custom routed tools verified on live end-to-end calls
- Directed compliance setup across LLC filing, Twilio A2P brand registration, recording-consent disclosures, and per-client data isolation

PROJECTS

Mini Shell | Personal Project | C++20, POSIX, libFuzzer

Oct 2026

- Developed a Unix shell from scratch in C++20 on POSIX system calls (fork, execvp, waitpid, pipe, dup2, open, signal), supporting pipelines, output redirection, built-ins (cd, exit) and Ctrl+C handling
- Fuzz-tested the command parser with libFuzzer and AddressSanitizer across 5.5M+ inputs with zero crashes, validating the harness by planting a parser bug that it caught within seconds
- Automated GitHub Actions CI that builds the shell, runs 15 end-to-end tests, reruns them under AddressSanitizer with leak detection, and fuzzes the parser on every push

Lenovo Hackathon, 1st Place | Backend Developer | TypeScript, Python

Mar 2026

- Generated structured pitch decks from raw business ideas in PitchPad, a Next.js and FastAPI platform integrating Claude's API, reducing prep time from weeks to under 5 minutes
- Architected 12+ REST endpoints with JWT authentication supporting multi-user pitch creation, AI coaching sessions, and real-time slide generation
- Engineered a Whisper to GPT-4o voice loop scoring pacing, clarity and confidence on live pitch delivery

Bank of America Hackathon, 3rd Place | Full-Stack Developer | TypeScript, Python

Apr 2026

- Led development of ScholarSync on a two-person team, a financial wellness platform consolidating 5+ student pain points into a single dashboard
- Engineered a Whisper, GPT-4o and TTS advisor that analyzed user behavior to deliver personalized budgeting, academic and career guidance in real time

LEADERSHIP & ACTIVITIES

Cyber Development SIG Lead | ACM | North Carolina A&T

Mar 2026 - Present

- Led a cybersecurity workshop each semester for roughly 50 ACM members covering network security, endpoint protection and ethical hacking, plus ~5 general meetings per term

Social Media Chair | Project Renaissance | North Carolina A&T

Aug 2025 - Present

- Grew the organization's social media presence and ran cross-platform campaigns that drove member engagement and event attendance
